Location: Lahore, Pakistan

SUMMARY:

Software engineer with 1+ years of experience in Low-code (OutSystems) and custom code development. Expertise in developing and delivering high-performance, optimized digital solutions. Adept at troubleshooting, resolving application defects, and leading proof-of-concept that enhance efficiency. Strong expertise in agile methodologies, with a focus on collaborating with cross-functional teams to deliver impactful solutions.

EXPERIENCE:

Junior OutSystems Developer – ISB Global

December 2023 – November 2024

- Developed web and mobile applications using OutSystems, increasing user satisfaction.
- Implemented BPTs and resolved server timeout issues, enhancing reliability by 20%.
- Developed and consumed REST APIs, streamlining data exchange time by 25% between systems.
- Troubleshoot and resolved application 30+ defects, optimizing performance and improving user experience.
- Conducted unit, manual, and regression testing, ensuring comprehensive application quality by 30%.

Trainee OutSystems Developer – ISB Global

September 2023 – December 2023

- Acquired knowledge in OutSystems development, supporting 2+ senior developers in various tasks.
- Gained an understanding of development processes and ensured efficient application design.
- Learned debugging techniques and fixed 10+ small bugs, improving code quality.
- Participated in 2 technical documentations, maintaining project clarity and accurate records.
- Participated in application testing, ensuring functionality and verifying system performance.

TECHNICAL EXPERTISE:

- **Languages:** OutSystems, JavaScript, HTML5, CSS3, SQL
- **Development Tools:** OutSystems Service Studio, Visual Studio
- **APIs:** REST, SOAP
- **Asynchronous Jobs:** BPTs, Light BPTs, and Timers
- **Databases:** SQL Server, MySQL
- **Testing:** Unit, API
- **Methodologies:** Agile (Scrum, Kanban), Waterfall

EDUCATION:

Bachelor of Science in Electrical Engineering

National University of Computing and Emerging Sciences | Lahore, Pakistan

PROJECTS:

Drivilogix (DIL) - Junior Developer

ISB Global | June 2024 - Present

Overview: Developed a mobile application for drivers to efficiently manage their delivery routes by identifying stops and associated orders.

Technologies: OutSystems, Soap API

Achievements: Successfully implemented local data synchronization between the mobile app and the server, ensuring real-time access to route and order information for drivers.

Routilogix (RIL) - Junior Developer

ISB Global | June 2024 - Present

Overview: Developed a web application for comprehensive order management, vehicle and driver management (resource management), and route management, facilitating efficient tracking of routes and orders

Technologies: OutSystems, Soap API

Achievements: Identified and fixed various defects within the product, enhancing the overall performance and reliability of the application.

Compliance Tracker (CTR) - Junior Developer

ISB Global | December 2023 - Present

Overview: A web application designed to help organizations manage internal activities and ensure compliance with internal policies and regulations.

Technologies: OutSystems, JavaScript, CSS3, SQL, Rest API

Achievements: Implemented new features and refactored the codebase, resolving unknown application behavior and improving overall system stability and performance.

CERTIFICATIONS:

- Associate Reactive Developer - O11
