Summary

A recent graduate with a Bachelor of Science in Information Technology, seeking an Associate Software Engineer position to kick start my career in software development. Eager to apply my strong theoretical foundation, problem-solving skills, and enthusiasm for contributing effectively as part of a dynamic software engineering team.

Languages and Technologies

- Python, C#, C++, Ruby, Html, CSS
- PyCharm
- SQL
- Dev C++
- VS Code

Experience

Huawei Internship

Huawei Technologies, Lahore, Punjab

11/2024 - Present

Software Engineering Intern

Recurso Labs, Lahore, Punjab

07/2024 - 10/2024

Learning Ruby on Rails, including a brief knowledge of MVC framework. Using PostgreSQL for Database and Visual Studio Code as an IDE.

Projects:

Examiner's Portal (FYP)

Automating examiner-branch paper processes, improving efficiency, security and examiner's duty assignments based on examiner's records, rankings and availability. Used **Python, Flask, PostgreSQL and React Js**

Guess the Number (Game)

Using python random module.

Mad Lib's (Game)

Implemented dynamic string formatting using Python's f-strings.

Food Reviewing Community

 Made a static front-end website named "Foodies on Hunt" using HTML and CSS.

Certifications and Courses

Data Structures and Algorithms course on O'Reilly Academy online. The course prepares learners to apply DSA concepts effectively in software development, enhancing problem solving skills.

Skills

Problem Solving, Debugging and troubleshooting, Leadership and Teamwork, Decision Making, Interpersonal Communication, Critical Thinking, Creativity
